Online Safety is Predominantly about Behaving Appropriately

Top Ten Tips for Young Students

Only have **True Friends** as Online Friends & contacts, and only interact and message with **True Friends**

Don't Add Random Players to 'Closed Groups' this is unfair to the other group members and can be dangerous.

Always **Think Before you Accept** a message, request, notification from any online contact or contact .

Taking / Posting / Sharing Inappropriate Selfies can be avoided by **Asking for a Second Opinion**

If anything Upsets, Worries, Frightens or Concerns you (or anyone you care about) **Speak to a Trusted Adult.**

Stick to the Correct Ages for Social Media, Apps & Games Don't assume - just because you can play- that true friends are allowed, ask first.

Always Ask Permission or for Advice, before you use, add, download, get or interact with anyone, 'This is Age Irrelevant'.

Don't become an unintentional victim through GPS & Viruses, so **Always Disable GPS (Location) When at Home**, and don't search for films in google or stream from file sharing system

Make Sure what you post, share, take, say or message **Won't Upset Anybody** and that you won't regret it.

At 14 Yrs **Speak to Trusted Adults** about 'Blogging' 'Twitter' & 'Linked In', to create an Online Brand to be proud of for your future
